Representative: Conde, Inc.

SURROUNDING ZONING AND LAND USE

North: R-5/SP/ Residential Development
South: C-1 / Vacant
East: R-5 / Residential Development
West: C-4/c / Commercial Development

PLAN EL PASO DESIGNATION: G4 Suburban (Walkable)

APPLICATION DESCRIPTION

The applicant proposes to subdivide approximately 8 ½ acres of vacant land for 51 residential lots. The residential lots range between 4,468 SF and 10,597 SF. There is a special permit in place that allows for a reduction in lot area and width. No parks or commercial development are included. Access to the subdivision is proposed from Pebble Hills Blvd. via Hannah Leigh Drive. This project is vested under the former subdivision code.

DEVELOPMENT COORDINATING COMMITTEE

The Development Coordinating Committee recommends **approval** of Sombras Del Sol Unit Seven on a Major Combination basis, subject to the following comments.

Planning Division Recommendation:

Approval as the plat conforms to the subdivision ordinance and special permit.

City Development Department - Land Development

We have reviewed subject plats and recommend **Approval**.

The Developer/Engineer shall address the following comments.

1. No objections.
2. Confirm if existing storm water drainage structures have sufficient capacity to handle the developed runoff from the proposed subdivision (per DSC and DDM).

El Paso Department of Transportation

No comments received.

Parks and Recreation Department

We have re-reviewed **Sombras Del Sol Unit Seven**, a major combination plat map and offer no objections to this development just have the following "**revised**" comments:

Please note that this subdivision is composed of **51** lots, does not include any parkland but is part of Sombras del Sol approved "Site Plan"; per Developer Participation agreement (signed 08/01/2006) "Park fees" for this subdivision are already accounted for by the improvements the developer did to the 6.35 acre "Off-site Park" as described on the "Agreement" therefore, Plat meets the minimum "Parkland/fees" requirements.

This development is located with-in Park Zone: **E-7**

Nearest Parks: **Carlos Bombach (6.35 acre off-site park)** & **Salvador Rivas**

If density/acreage is increased /decreased or the property zoning /use changes, then "Park fees" will be re-assessed based on applicable conditions.

El Paso Water Utilities

We have reviewed the above referenced subdivision and provide the following comments:

1. EPWU- PSB does not object to this request.

Water

2. There are existing 8-inch diameter water mains that extend along the existing portions Lisa Sherr and Hannah Leigh Streets. These mains dead-end at the northern property line of this subdivision.
3. There is a 12-inch diameter water main that extends along Pebble Hills Boulevard. This main has 8-inch diameter stub-outs that are aligned towards the north to the proposed Hanna Leigh St. and Lisa Sherr. Service to Sombras Del Sol Unit 7 is anticipated by means of water main extensions from the Hanna Leigh Dr. stub-out north to the existing water main on Hanna Leigh Dr. and Lisa Sherr.

Sanitary Sewer

4. There are existing 8-inch diameter sewer mains that extend along the existing portions Lisa Sherr and Hannah Leigh Streets. These mains dead-end at the northern property line of this subdivision.

5. There is an existing 8-inch diameter sanitary sewer main that extends along Pebble Hills Boulevard. This main has 8-inch diameter sanitary sewer stub-outs aligned towards the north to the proposed Hannah Leigh Street and Lisa Sherr Drive. Service to Sombras Del Sol Unit 7 is anticipated by means of sewer main extensions from the described stub-out to the existing sewer mains on Hanna Leigh and Lisa Sherr.

General

6. Sanitary sewer service is critical. Owner is to grade the subject subdivision to allow for gravity sewer service to the above described sewer mains.
7. EPWU requires a new service application to provide service to the property. New service applications are available at 1154 Hawkins, 3rd Floor. The following items, if applicable, are required at the time of application: (1) hard copy of subdivision plat with street names and addresses; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

El Paso Fire Department

No comments received.

Sun Metro

- Sun Metro recommends the placement of sidewalks and ADA compliant improvements throughout the development to City standards to provide pedestrian accessibility to mass transit services.

911

- Recommend that **LISA SHERR ST** be changed so that it **connects with PEBBLE HILLS BLVD**, traveling in a straight southerly line in alignment with the existing **LISA SHERR ST** to the south of **PEBBLE HILLS BLVD**. The District's belief is the current configuration invites potential problems and delays with emergency response situations, therefore jeopardizing the safety of life and property.
- The original 11/11/2003 City approved plan and the 1/2/2008 preliminary plat, both of which were previously reviewed, seem to be suitable for public safety.

Central Appraisal District

No comments received.

El Paso Electric Company

No comments received.

Texas Gas Company

No comments received.

El Paso Independent School District

No comments received.

Additional Requirements and General Comments:

1. Submit to the City Development Department – Planning Division the following prior to recording of the subdivision.
 - a. Current certified tax certificate(s)
 - b. Current proof of ownership
 - c. Release of access document, if applicable
 - d. Set of restrictive covenants, if applicable
2. Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.
